

## Portable Powder Coating Gun

THE COMPLETE PORTABLE Powder Coating System For Testing Lab & Powder manufacturer for small panel coating, testing panel coating.

## Our Valuable Clients -

### PRODUCT RANGE

- Electrostatic Powder Coating Equipment Manual
- Electrostatic Powder Coating Equipment Automatic / Reciprocator
- Powder Spray Booth with Multi Cyclone, bag Cartridge System
- Powder Curing Oven : Electric, LPG, LDO Fired
- Paint Booth : Dry Back Type, Water Screen Type
- Conveyerised Powder Coating / Painting Plant
- Pretreatment System : Dipping Type, Spray Type

# MOST RELIABLE & ECONOMICAL POWDER COATING SYSTEM

## Electrostatic Powder Coating Gun

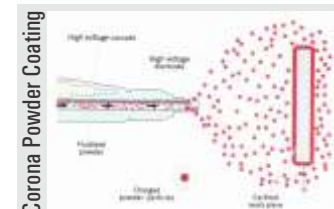

### New Advance Technology Gun

- More Coating Speed / Max Productions
- Improve Finish
- Low Energy Generations

### Silent Features

- Hyper charging
- First go efficiency
- Integrated 100 KV built in electrostatic high voltage generator for max. transfer efficiency and reduced wastage of Powder.
- efficient coating at faster line speed
- better coverage in corners & cavities
- external powder hose for better flow & easy color changes
- easily charge the Metallic powder without changing nozzle.
- easily charge the re-used powder.
- voltage & current reduces as the gun goes nearer to the article, maximum safety of the operator.
- All moulded parts of modern polymer makes the gun lightweight, well balanced.

## Powder Recovery Booths

### Silent Features

- 99% Recovery Guaranteed
- Collects air-borne powder
- Automatic pulse filters
- Discharge powder drawers
- Easy installation
- Removable recovery bins
- Quick Colour Change

BOOTH

## Ovens

Application of Oven in Paint shop in for water drying after pretreatment & for powder curing or paint baking.

- Electric Heater Oven
- LPG / CNG Fired Oven
- LDO Fired Oven
- IR Lamp Oven

### Silent Features

- Less Heat Energy Consumption
- Uniform Temperature
- Balanced Blower For Effective and
- Uniform Heat Circulation.
- Suitable Design Control Panel
- Maintenance Free and Cost Effective.

OVEN

## Liquide Booths

Control Paint Before Polluting the environment

- Water Wash - Water Screen Type
- Dry Back Type
- Down Drought Type

Most Advanced Liquid Booth

We Manufacturing Most advanced Liquid Booth which are use for better pollution control.

PAINT BOOTH
